

Go Kart Motors

Flooded Cases

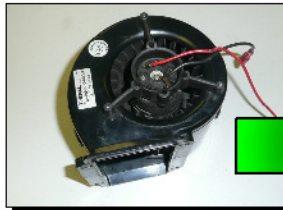

* All cases are completely flooded with Class "H" varnish to ensure a tight fit and create a barrier against moisture and carbon grounds.

Armatures, Bearings, Brushes, Springs

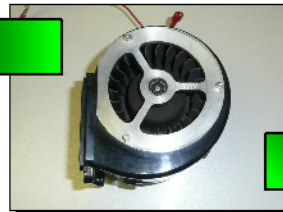

- * In house winding facility
- * Nomex insulation & Class "H" varnish.
- * Turn and undercut to proper depth to prevent shorting & increase brush life.
- * Bar to bar testing.
- * Coils and commutators brazed.
- * Fully tested to assure high quality.
